Networking: TCP/IP, DNS, VPN, VLAN Basics, Network Troubleshooting

PROFESSIONAL EXPERIENCE

ASIS Advanced Solutions — Technical Support Engineer Aug 2025 – Present

- Deliver L2/L3 remote support ERP system operations with a primary focus on Time & Attendance (T&A) and Payroll modules for enterprise clients in Qatar and UAE, including Qatar Islamic Bank, beIN Sports, and ASGC, ensuring high availability of critical business systems.
- Managed 40+ SLA-bound tickets/month with average P1 resolution under 4 hours, consistently meeting SLA targets across enterprise accounts in Qatar and UAE.

- Reduced repeat incidents by 30% through structured Root Cause Analysis (RCA), documenting findings and implementing preventive configuration changes to eliminate recurring failures
- Performed database investigations using SQL Server and PostgreSQL to identify data discrepancies, validate payroll calculations, and ensure data integrity across multi-tenant ERP environments.
- Troubleshoot system integrations and infrastructure, supporting REST APIs and SOAP Web Services integrations tested with Postman, and administering Microsoft IIS applications including application pool management and server-side diagnostics.

Hikvision MENA — Channel Pre-Sales & Technical Support Engineer *Nov 2024 – Aug 2025*

- Designed and implemented integrated ELV solutions including CCTV, Alarm systems, Access Control, Parking Systems, and Audio across 10+ commercial and government projects, covering deployments of up to 1000 cameras and 500 Access control per site.
- Delivered certified product training 20+ partners across Delta Region, distributors (NDs) and dealer partner programs (DPPs) across the MENA region, officially certified as a Hikvision Trainer. Maintained SLA compliance for partner support cases while handling integration and configuration escalations across MENA region.
- Collaborated with Hikvision HQ, R&D, and product management teams to relay field feedback, report product issues, and drive improvements aligned with customer needs.
- Provided technical support for partners, diagnosing integration issues between Hikvision platform and third party access-control systems via API..

FastEGY — Technical Sales & Pre-Sales Engineer *Oct 2022 – Nov 2024*

- Designed and delivered end-to-end security and ELV solutions including CCTV, Access Control, and Networking infrastructure for enterprise and SMB clients.
- Conducted technical demonstrations, product presentations, and presales consultations to identify client needs and propose tailored solutions.
- Managed multiple concurrent projects from design through delivery, coordinating with vendors and installation teams to ensure on-time completion.
- Specialized in Hikvision product lines and Cisco switching infrastructure, supporting integrations and complex multi-site deployments.
