

AHMED HANY ROSHDY

ERP Technical Support Specialist | Application Support Engineer | Junior .NET Developer

Alexandria, Egypt • 01022609331 • ahmedroshdy8802@gmail.com • linkedin.com/in/ahmed-roshdy74

PROFESSIONAL SUMMARY

Results-driven ERP Technical Support Specialist with hands-on experience supporting Motkamel Plus ERP — an MS SQL Server-based accounting and operations platform deployed across multiple business sectors in Egypt. Skilled in diagnosing and resolving database, application, and network issues for remote and on-site clients. Proficient in SQL Server, T-SQL, Crystal Reports, and ERP module configuration across accounting, inventory, sales, purchasing, and HR. Software development background in .NET and C# provides a strong advantage in understanding application workflows and escalated technical issues.

CORE COMPETENCIES

ERP Support & Implementation — Motkamel Plus ERP, ERP Configuration, Client Onboarding, User Training, Module Support

Database & Reporting — SQL Server, T-SQL, Stored Procedures, Query Optimization, SSMS, Crystal Reports

Technical Support — Incident Management, Troubleshooting, Remote Support, Application Debugging, SLA Handling

Development & Tools — C#, .NET, ASP.NET MVC, Windows OS, TCP/IP, DNS, Git, GitHub, Postman, REST APIs

PROFESSIONAL EXPERIENCE

Technical Support Specialist — ERP | **Ultimate Solutions**

Oct 2025 – Present

Motkamel Plus ERP | Alexandria, Egypt

- Provide end-to-end technical support for Motkamel Plus ERP system — an MS SQL Server-based accounting platform — across clients in retail, manufacturing, trading, and services sectors.
- Support and troubleshoot ERP modules including Accounting, Inventory, Sales, Purchasing, and HR, ensuring business continuity for client operations.
- Investigate and resolve SQL Server database issues using T-SQL — including deadlock diagnosis, query rewriting, stored procedure debugging, and data integrity checks.
- Deliver system configuration, client onboarding sessions, and end-user training tailored to each client's business workflow.
- Design and customize operational and financial reports using Crystal Reports to meet specific client reporting requirements.
- Manage and resolve technical incidents for both remote and on-site clients, maintaining high customer satisfaction and timely follow-up.
- Coordinate with the development team to escalate and document recurring bugs, contributing to product quality improvement.

PROJECTS

Graduation Project — Pharos University

2024 – 2025

Grade: A+ | Computer Science — Faculty of AI & Computer Science

- Designed and developed a full-stack web application using ASP.NET MVC, C#, and SQL Server, incorporating role-based access control and a normalized relational database.
- Implemented RESTful APIs and integrated third-party services, applying software engineering principles and design patterns throughout the development lifecycle.

Freelance Software & Database Projects

Dec 2024 – Present

- Built and managed SQL Server databases for small business clients, including schema design, query optimization, and stored procedure development.
- Integrated REST APIs and implemented Git-based version control workflows for backend solutions.
- Delivered database maintenance, performance tuning, and documentation as part of ongoing client engagements.

EDUCATION

B.Sc. Computer Science

2021 – 2025

Faculty of Artificial Intelligence & Computer Science | Pharos University, Alexandria
