SUMMARY

Systems and Computer Engineering graduate with a strong foundation in Networking and Defensive Security Solutions. Gained practical experience working with Windows environments and currently developing hands-on skills in Application Deployment, Linux administration, and troubleshooting. Eager to leverage this combined technical background to contribute to secure, reliable, and efficient IT environments.

EDUCATION

B.Sc. in Systems and Computer Engineering

Al-Azhar University – Faculty of Engineering | 2020 – 2025

- GPA: 3.24 / 4.0 (B+)
- Graduation Project: DualNet Bridge using MPLS — Grade: A

CERTIFICATIONS

- Fortinet NSE 4 – FortiGate
- Fortinet NSE 5 – FortiManager

WORK EXPERIENCE & INTERNSHIPS

Application Deployment Intern — DataGear (AML/CFT Solutions)

Aug 2026 – Present

- Assist in deploying and configuring Java applications across Windows and Linux environments, using application servers such as Apache Tomcat.
- Support database connectivity, application troubleshooting, and deployment-related issues across different database environments.

On-site Network and Security Trainer — WE Applied Technology Schools

Sept 2025 – Apr 2026

- Delivered on-site training for high school students on networking and security topics, covering CCNA and FortiGate curricula.
- Supervised practical labs using real network devices and Cisco Packet Tracer, ensuring hands-on learning.

Network Security Services Intern — Optima Professional Services

Aug 2025

- Attended vendor-focused technical sessions delivered by leading network security solution providers.
- Gained hands-on experience with network and network security solutions through practical exercises.
- Participated in a real-life CTF simulation replicating a company's day-to-day security operations.

PROGRAMS

NTI Hire Ready Scholarship — Defensive Security Solutions

Apr – Jun 2026

- Studied CCNA and CCNA Security fundamentals, covering networking, routing, switching, network security, and troubleshooting.
- Gained hands-on experience with FortiGate firewall configuration, including security policies, NAT, IPsec VPN, SSL VPN, and security controls.

Digital Egypt Pioneers Initiative (DEPI) — Cisco Network Administration

Apr – Oct 2024

- Gained practical experience in CCNA networking, including routing, switching, and security fundamentals.

TECHNICAL SKILLS

- Application Deployment: Java Applications, Apache Tomcat, WAR Files, Deployment Troubleshooting, PowerShell Scripting
- Network Security: Firewall Policies, NAT, IPsec & SSL VPN, FortiGate, Network Security Fundamentals
- Networking: IPv4/IPv6, VLANs, Routing & Switching, Network Troubleshooting
- Platforms & Tools: Cisco Packet Tracer, GNS3, VMware, Red Hat Enterprise Linux (In Progress)

LANGUAGES

- Arabic — Native
- English — Upper Intermediate
