SUMMARY

Junior Network Engineer with hands-on experience in enterprise network design and simulation. Strong background in routing, switching, VLANs, and troubleshooting. Seeking a role in Network Engineering or NOC.

PROFESSIONAL EXPERIENCE

Junior Network Engineer – Freelance | 2024 – 2025

- Designed and implemented enterprise network simulations.
- Configured VLANs, routing, DHCP, and subnetting.
- Built multi-department network infrastructures.
- Troubleshot network issues and documented configurations.

COURSES

- CCNA (200-301)

NETWORKING PROJECTS

Enterprise Network Design – Cisco Packet Tracer

- Designed a multi-layer architecture (Access, Distribution, Core).
- Implemented OSPF, EIGRP, RIP.
- Configured DHCP, NAT, ACLs, and VPN.
- Performed testing and troubleshooting.

Multi-Branch Network

- Designed a scalable multi-branch enterprise network.
- Configured subnetting and IP addressing.
- Implemented static routing across WAN links.
- Configured NAT/PAT for internet access.

GRADUATION PROJECT

AI-Based Sign Language Translation System

- Developed a real-time sign language for the Egyptian voice & text system.
- Used Python, MediaPipe, and ML models.
- Implemented live camera processing.

EDUCATION

Nile University – Bachelor of Electronics & Computer Engineering

Graduation: July 2025

ENGINEERING BACKGROUND

Systems: Microcontrollers & Embedded Systems, IoT Concepts.

Communication Protocols: UART, SPI, I2C.

Programming & Languages: Python, C / C++, Software fundamentals, and scripting.

TECHNICAL SKILLS

- Networking: Routing & Switching, TCP/IP, VLANs, Subnetting, DHCP, DNS.
- Operating Systems: Linux, Windows.
- Web & Data: Python, HTML, CSS, JavaScript, PHP, MySQL.

SOFT SKILLS

Problem-solving, Analytical thinking, Teamwork, and fast learner.

LANGUAGES

Arabic: Native.

English: Fluent.
