PROFILE

Communication Engineering graduate with hands-on experience in **Microsoft Intune, Azure Active Directory, and endpoint management**. Skilled in **troubleshooting, escalation handling**, with expertise in **cloud infrastructure, networking** (Cisco/FortiGate), and **security operations** (SIEM, IDS/IPS). Passionate about solving complex issues, improving user experience, and strengthening security.

EDUCATION

Bachelor of Communication Engineering and Electronics

Modern Science and Arts (MSA) University, Cairo, Egypt

Sep 2019 – Jun 2024

University of Greenwich, London, UK (Dual Degree)

Sep 2021 – Jun 2024

- **GPA:** 3.0/4.0 (Very Good)
- **Thesis:** On-board IoT and satellite communication subsystem for smart farming (real-time monitoring and data optimization).

TECHNICAL SKILLS

Cloud s Microsoft Solutions: Azure AD, Microsoft Intune

Programming Languages: JavaScript, Python

Backend Development: Node.js, Express.js, TypeScript, RESTful APIs

SOC Tools: SIEM (Splunk, Chronicle), IDS/IPS, Wireshark, Log Analysis

Networking s Security: Cisco Packet Tracer, Kali Linux, FortiGate NSE4, CCNA (Routing, VLANs, ACLs)

COURSES AND CERTIFICATIONS

- **Microsoft Azure Fundamentals (AZ-900) Certification** – (Cloud Academy) (2026)
- **Intune (MDM / MAM) Microsoft training course with HANDS ON** – (Udemy) (2025)
- **The Complete Web Development Bootcamp** – (Udemy) (2025)
- **100 Days of Python Pro Bootcamp** – (Udemy) (2024)
- **Google Cybersecurity Professional Certificate** – (Google) (2024)
- **Introduction to Network Security** – (iti) (2023)
- **Cisco Certified Network Associate (CCNA)** – (Cisco) (2022)

Experience

Frontline Engineer (Cloud Tech support Tier III)

Concentrix-Microsoft

Feb 2025 – Present

- Troubleshoot and resolve **Azure AD** and **Microsoft Intune** issues (including device enrollment, policy deployment, and compliance errors).
- Configure and manage **conditional access, security baselines, and endpoint protection** in Intune.
- Collaborate with IT teams to optimize **Autopilot, MDM/MAM policies, and security configurations**.

Cybersecurity Trainee

Information Technology Institute (ITI), Cairo, Egypt

Aug 2023 – Sep 2023

- Performed vulnerability assessments and penetration testing using Kali Linux.
- Configured FortiGate firewalls (NSE4) to enforce network security policies.
- Designed and simulated secure LAN/WAN networks with Cisco Packet Tracer.

Wireless Broadband Transmission Intern

Systel Telecommunication, Cairo, Egypt

Jan 2022 – Feb 2022

- Optimized wireless network protocols for improved data transmission efficiency.
- Assisted in troubleshooting digital communication systems.

PROJECTS

FortiGate Firewall Configuration (NSE4)

- Deployed FortiGate firewall policies (NAT, VPN, IDS/IPS) to secure a simulated enterprise network.
- Enforced application control and monitored threats using Forti Analyzer, reducing attack surface by 30%.

OSPF Routing (Cisco Packet Tracer)

- Designed a multi-area OSPF topology with route summarization to optimize traffic flow.
- Achieved 99.9% uptime by tuning OSPF metrics (cost) and implementing DR/BDR election.

Google Cybersecurity SOC Projects (Coursera)

- **SIEM Analysis:** Correlated logs using Splunk to detect brute-force attacks, reducing incident response time by 40%.
- **Phishing Mitigation:** Analyzed malicious emails with Wireshark and simulated attacks via Gophish for staff training.

Volunteer Experience

Lebaladna s Earth Building Charities

- Distributed food/supplies to underserved communities and coordinated outreach programs.
