COMMUNICATION ENGINEER

Mai.Mohamed.hassan9@gmail .com

01100814437

shoubra, Cairo , Egypt

EDUCATION

Canadian international college (sheikh Zayed branch), Faculty of Engineering .

2019-2024

- Bachelor of Engineering, communication & Electronics Department.
- (Grade/Very good), (GPA/3.2).
- (Graduation Year/2024).
- (Graduation Project / (Scanner, jammer, analyzer device)
- (Grade/Excellent).

CAREER OBJECTIVE

Dedicated and motivated Telecommunication Engineer with extensive experience in network operations and maintenance, I am actively seeking a challenging role within a dynamic organization. My goal is to leverage my technical expertise and passion for innovation to design, develop, and implement cutting-edge communication systems. I am driven to contribute to organizational success and advance my career through continuous learning, professional growth, and leadership opportunities

EXPERIENCE

SMT(COVERAGE)in Huawei GNOC at Saudi Zain project in Huawei |Egypt

Aug 2025 till now

- Handling customer complaints (CS) using the Remedy tool within SLA to ensure customer satisfaction.
- Responsible for ensuring reliable and efficient coverage for voice and data services, identifying coverage gaps, and supporting the resolution of issues affecting network coverage. Aim to provide seamless connectivity, enhance network performance, and improve customer satisfaction.
- Analyze network performance metrics to identify areas for optimization and improvement.
- Collaborate with cross-functional teams to implement solutions for enhancing network reliability and performance.
- Continuously monitor network infrastructure to proactively identify and address potential issues before they impact customer experience.

FO IPRAN Engineer in Huawei GNOC in Saudi Zain project | Huawei | Egypt, Smart village

Sept2024-Aug2025

Managed and monitored IP network infrastructure for mobile communication systems (RAN & IP transport).

- Configured and troubleshot routers, switches, and MPLS networks to ensure high availability and performance.
- Monitored network KPIs and performed fault analysis, root cause identification, and service restoration.
- Collaborated with field engineers and cross-functional teams to implement IP-based solutions for mobile backhaul and core networks.
- Performed network optimization, capacity planning, and traffic engineering to improve overall network efficiency.
- Documented network configurations, topology, and standard operating procedures for IP and transport networks.
- Participated in network upgrade projects, migrations, and integration of new IP technologies.
- Ensured compliance with network security standards, VPN configurations, and IP addressing schemes.

Admission representative CIC

Sep 2022-Aug 2024

PRACTICAL TRAINING & COURSES.

June 2025 – Aug 2025

Cisco Certified Network Professional (CCNP) Security

- VLans,VTP & STP
- Ether channel & Port security
- HSRP ,VRRP & GLBP
- EIGRP , OSPF & BGP
- IPV6

MAR 2025 – June 2025

Cisco Certified Network Associate (CCNA)

- Network fundamentals
- Network access
- IP Connectivity
- IP Services
- Security fundamentals

Sep 2024 – Dec 2024

Penetration testing

- Power shell for penetration testing
- C# for penetration testing

June 2024 – Sep 2024

5G "SA & NSA " , Mega academy

June 2023 – Sep 2023

LTE, LTE-A, LTE-A Pro & 4G Planning

June 2022 – Aug 2022

CDMA,UMTS,HSPA & 3G Drive test and post processing

June 2022 – Aug 2022

GSM, GPRS, EDGE & 2G Drive test and post processing

INTERPERSONAL SKILLS.

- Creative
- Work well in groups
- Effective
- Organized
- Strong ability to work under pressure
- Responsible
- Diligent
- Ability to work for a long time
- Strong ability to work under pressure
- Good Presentation and communications skills
-

LANGUAGE

Arabic

English

SKILLS

- Packet tracer
- CUSTOMER SUPPORT APPLICATION(Remedy)
- U2020
- OWS
- LMT
- Microsoft office
- Penetration testing
- Matlab
- Java and python language
- Linux
